Healthy, radiant, glowing skin is something every person wants. From the day we are born, our skin requires much care to remain smooth and vital.

We often forget that everything that comes in contact with our body affects the health and condition of our skin. Skin care is a lifelong process. As we age, our skin becomes more sensitive and we need to be even more careful with how our skin is treated.

Wachters' Sea Baath does more than take care of our skin. With regular use, our skin becomes more alive. We feel the change in our skin tone as the Sea Baath treated water flows over our body. But something else happens, too. Our mind is transported to a magical place where - for a precious few moments - everything's all right with the world. Our muscles and our mind discover a deep relaxation in soothing bath water, whirlpool or Jacuzzi with the restorative Sea Baath. The cares of the day disappear, that all-over tension vanishes. A feeling of well-being returns. We are restored, ready to take on the challenges that are still there.

That is the wonder of Wachters' Sea Baath. Try it today.
